

Specification

Product name: p-Naphtholebnzein	
Product code: JN0597	Chemical Formula: C ₂₇ H ₁₈ O ₂
CAS No.: 145-50-6	MW: 374.43

Item	Specification
Appearance	Red to brown to black powder
Absorption maximum λ_{max} (0.1M perchloric acid in acetic acid)	622 to 626nm
Absorptivity A1%/1cm (λ_{max} , on dry matter)	>640
Identity (IR+UV)	Conform to structure
Loss on drying (105°C,1h)	<7%
Transition range (pH 8.0 - 9.6)	Reddish orange – greenish blue

Notes: Protect from light and moisture air. Store at room temperature.

Address:

Suit 306, Building B2, No.2 Tianerdang Road
Fumeng SI-Park,
Wuzhong District, Suzhou City
China
