## Specification

|   |   |
|---|---|
| Product name: 2-Hydroxy-4-nitrobenzaldehyde |   |
| Product code: JH1382                        | Chemical Formula: C <sub>7</sub> H <sub>5</sub> NO <sub>4</sub> |
| CAS No.: 2460-58-4                          | MW: 167.12  |

| Item            | Specification                       |
|-----------------|-------------------------------------|
| Appearance      | Off-white to yellow to brown powder |
| Purity (HPLC)   | >98%                                |
| Identity (HNMR) | Conform to structure                |
| Water content   | <1%                                 |

**Notes:** Protect from light and moisture air. Store at 2-8°C.
